

Rich Weltzin, PhD
Co-Lead of Integrated Team

Dr. Weltzin is a viral immunologist and vaccinologist with over 25 years of experience in vaccine research, development and clinical testing at biotechnology and nonprofit organizations.

Rich provides expertise in the areas of pre-clinical testing, clinical document preparation and regulatory submissions for Phase 1-3 clinical trials. Prior, Rich served as Program Advisor at the PATH Malaria Vaccine Initiative where he managed multifunctional teams to oversee malaria vaccine candidates from development through manufacturing and transition to clinical testing.
